

App Development with Swift

Certified User

Swift. The language for first-time coders
and full-time developers.

Swift is a robust and intuitive programming language created by Apple that's easy to learn, simple to use, and super powerful—which makes it great for getting started with code.

App Development with Swift Certified User

Certification recognizes foundational knowledge of Swift, Xcode, and app development tools covered by the free Develop in Swift Fundamentals course from Apple. Students who pass the certification exam will earn a digital badge they can place in a resume, portfolio, email, or share in professional networks.

Certified User

Help Students Get Certified in Swift

Build Knowledge of Swift

- Discover, explore, and build fundamental iOS app development skills with Swift
- Learn the core concepts and practices that Swift programmers use daily and build a basic fluency in Xcode source and UI editors

Build Knowledge of App Development

- Learn the basics of the Apple Software Development Kit
- Explore and use developer tools such as Playgrounds, Xcode, Simulator, and Interface Builder
- Create iOS apps that adhere to standard practices, including the use of stock UI elements, layout techniques, and common navigation interfaces
- Explore and learn common tools, technologies, interface elements, and design patterns used to build iOS apps
- Learn to use common iOS frameworks in hands-on app projects

Develop in Swift curriculum and resources

The App Development with Swift Certified User exam is based on the Develop in Swift Fundamentals course from Apple. Students build fundamental iOS app development skills with Swift. They'll master the core concepts and practices that Swift programmers use daily and build a basic fluency in Xcode source and UI editors. Students will be able to create iOS apps that adhere to standard practices, including the use of stock UI elements, layout techniques, and common navigation interfaces. The Teacher Guide provides tools to deepen engagement with aspiring app developers, whether you have experience teaching Swift or other programming languages.

Get Started Today

Integrating the Develop in Swift Fundamentals course and App Development with Swift Certified User exam into your program helps students make an impact on the world with code.

To purchase an App Development with Swift Certified User campus license or to learn more about how to access learning resources and certification materials, please contact a Certiport territory manager (In the U.S.), a Certiport partner (Outside the U.S) or visit us at 1-888-222-7890 // www.certiport.com/apple
