HVAC DIAGNOSTIC INTRUMENTS CERTIFICATION

The **HVAC Diagnostic Instruments Certification** is designed to train HVAC learners on the technology required to successfully test building performance and retrofit. The knowledge and experience gained in this critical discipline are **TOOLS FOR LIFE** essential to a successful career in critical industries such as air conditioning (AC) systems diagnostics, heating systems diagnostics and facility systems diagnostics.

The certifications will prepare learners to operate specialized tools to test indoor air quality, carbon monoxide, HVAC air distribution, pressure and vacuum testing, temperature, fluid integrity, motor RPM and vibration, and combustible gases. Additionally, the introduction of "smart technology" communication via a mobile app is an additional certification for AC, Heating, and Facility Systems Certifications.

Upon successful completion of a required train-the-trainer, and training aids on site, schools participating in the program(s) receive the curricula, lab sheets, and online testing access at no charge. The curriculum is designed to integrate seamlessly into existing course material without adding extra hours. Students who successfully complete the course will earn third-party certificates from a globally recognized brand.

COURSE CONTENT INCLUDES:

- Air Conditioning (AC) Systems Diagnostics
- Heating Systems Diagnostics
- Facility Systems Diagnostics
- Software Viewing App

TECHNICAL EDUCATION

BUILDING TOOLS FOR LIFE

Snap-on certifications provide a return on technical education investment through hands-on training and state-of-the-art tools and equipment. The **HVAC Diagnostic Instruments Certification** connects directly to the following academic subject areas, and is not limited to:

- HVAC
- Industrial Maintenance
- Energy

Students earn Snap-on certifications as proof of achievement. These NC3 stackable credentials increase employment potential and on-the-job productivity in industries such as:

- Building Management
- Building Retrofit
- Construction
- General Repair
- HVAC
- Plant Management
