QUALITY CONTROL MEASURING INSTRUMENTS CERTIFICATION

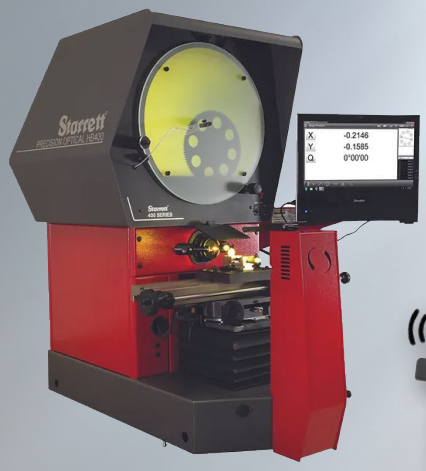
The successful completion of the **Quality Control Measuring Instruments (QC) Certification** enables graduates to demonstrate a solid understanding of the fundamentals of working with QC measuring instruments. The skills acquired during this comprehensive training are valuable **TOOLS FOR LIFE** that can lead to rewarding careers in a vast array of industries in the global marketplace.

The instruments in this certification are utilized in precision manufacturing labs globally. Those that acquire these certifications will display competency through hands-on application, exams, and successful completion of an online exam. The content of this certification is designed to meet the expectations of Starrett, Snap-on, and critical industries like aerospace, metrology, manufacturing, metal working, and transportation.

Upon successful completion of each module, the learner acquires a stackable credential from Starrett; a global leader in the manufacturing and use of precision measurement instruments.

COURSE CONTENT INCLUDES:

1. Data Collection
2. Hardness Testing
3. Surface Finish Testing
4. Optical Comparator
5. Vision Measurement System



Starrett

TECHNICAL EDUCATION

BUILDING TOOLS FOR LIFE

Snap-on certifications provide a return on technical education investment through hands-on training and state of the art tools and equipment. The Snap-on Starrett **Quality Control Measuring Instruments Certification** connects directly to the following academic subject areas, and not limited to:

- Advanced Manufacturing
- Aviation/Aerospace
- Energy
- Metrology

Students earn Snap-on certifications as proof of achievement. These NC3 stackable credentials increase employment potential and on-the-job productivity in industries such as:

- Aerospace
- Manufacturing
- Metal Working
- Metrology
- Transportation
